Hi Glen,

I just wanted to say thank you to the electrician who attended Watford on Saturday morning and managed to get the freezer lights working. The warehouse had a local electrician in all week and they couldn't work out what the problem was, and we were also speaking to Trane to see if it was a problem with the BMS system.

Our senior Vice President from Costco US was visiting on Monday so it was extremely important to the Manager of Watford that his freezer lights were working, so your electrician managed to save the day.

Please pass on our thanks to him.

Kind regards
