Dear

Steve

Re: New accommodation for SO1 at New Scotland Yard.

I would like to place on record my personal thanks for all your hard work on the above project. You and your team have demonstrated exemplary drive and commitment to a major building project involving change to the Metropolitan Police Estate and you have delivered the most important elements of this complex project entirely to my, and the Metropolitan Police Service (MPS), requirements.

Your enthusiasm and diligence, coupled with your proactive approach and attention to detail, has been very gratefully received by myself and by the MPS.

By delivering this building project on time you have facilitated cost savings to the MPS by allowing us to make better use of our estate and operational colleagues are operating from excellent facilities which will enable them to provide Specialist Protection duties more efficiently and effectively.

It can be invidious to single out any personnel for special congratulations but I must make specific mention of the terrific contributions to the project by Vijay Bhojani, Terry Owen, Alan Airey, Michael Poplett and Lee Owen and, from your subcontractor McDonald Brown, Terry Hedges, Cory Baker and Danny Crowe. Their pro-active and 'can do' attitude made all the difference to this challenging project.

Please pass on my personal thanks to all concerned, and especially to those important people who I have failed to mention.

Yours Sincerely

Ja Leggett
